RELIANCE ON SITE	High (makes them feel connected with the outside world)	Usually low, but high if there's an immediate issue.	Medium	Medium
USAGE SCENARIOS	Frank can't easily access the local library in his wheelchair because it doesn't have ramps – he wants help to lay a complaint to the local council but feels intimidated. He uses GdAA to notify them of the issue.	Due to her degrading vision Pat has just lost her driver's license and can no longer ferry Frank to appointments. She wants to know if she can get a taxi-allowance and visits the GdAA website to see if it contains any information about travel arrangement for disabled people.	Kathy has been working as a Case Manager for Frank for several years and admires his tenacity in ensuring the local council lives up to it's obligations for disabled citizens. She wants to encourage others to do the same and submits a story about Frank's achievements to the GdAA.	Josie receives an email from Kathy containing her story about Frank. She thinks this is a great read and contacts Kathy to ask a few more questions. She makes a few edits to the story and then uses the GdAA website admin to post the story to the website.
THIS PERSONA ALSO REPRESENTS USAGE PATTERNS OF	Deaf Physically impaired Intellectually impaired Learning impaired (Poor Reading)		Service Provider Supervisor
